THE PERFECT SCENE FOR THE MOST
DEMANDING GAMER

COVENANT M

A mousepad is one of the most important elements for a gamer. Its quality will depend on the smoothness and efficiency with which a mouse slides and works properly.

Covenant mousepads ensure an ideal surface for the perfect slide of the mouse while its non-slip rubber base ensures a proper hold to the table.

The anti-slip design, coupled with the professional seam of the edges prevents its deterioration by continued use.

The high-density structure of the mat increases comfort and durability compared to other cloth mousepads.
