ATLANTICO 360

THE RIGHT TEMPERATURE FOR THE
BEST GAMING EXPERIENCE

ATLANTICO 360

ATLANTICO Liquid Cooling range allows gamers to live their experience seamlessly from temperature changes.

Do you imagine those endless gaming sessions without the heat generated by the team interrupting the most exciting games?

High quality units with a real cooling capacity between 220 and 350W. 1, 2 or 3 120 mm fans depending on the model.

Select the fan that best matches the CPU's design to give your personal touch. And finally, install it in a simple way to start enjoying without fuss.

Because the truly important is the gaming experience.
