SNOW IV BLACK

The Snow IV Black CPU cooler is a high-quality cooling solution designed for demanding users who are looking for effective heat dissipation and superior performance.

It features four high-quality heatpipes and a 120mm fan that provides optimal airflow and efficient cooling. In addition, the Snow IV Black features PWM technology that allows for automatic regulation of the fan speed based on CPU temperature, ensuring optimal cooling performance at all times and less heating of the system.

And with a 5-year warranty, the only concern for the gamer will be to play, ABYSM will take care of everything else.
